Women Doctors Stirred by Appeal Made by Mrs. Nina Larrey Duryea.

A voice from Roye, war worn town in France, so stirred 300 women doctors yesterday that a number of them stripped themselves of rings, bracelets and other personal valuables to give for the relief of the devastated region upon which the eyes of the world are centred. The voice was that of Mrs. Nina Larrey Duryea, whose relief depot at Roye was occupied by the Germans this week.

Mrs. Duryea spoke at the daily meeting of the campaign committee for the American Women's Hospitals at the Hotel Biltmore. The day's reports showed subscriptions of \$12,104 and made the total more than \$50,000. It is hoped to raise \$200,000.

Mrs. Duryes pleaded for volunteer physicians for service in France. She emphasized the point that doctors are "Use it to buy War Stamps," an-awered Edna as she punctured the air with an empty los cream spoon by way physicians to care for the sick. Mme. Despina Davidovitch Storch enutiful spy suspect, 23 years old, ended a varied life at Ellis Island yesterday after a five days illness with pneumonia.
